Fragile X syndrome - Genetics Home Reference - NIH Fragile X syndrome is a genetic condition that causes a range of developmental problems including learning disabilities and cognitive impairment. Usually, males are more severely affected by this disorder than females. Fragile X syndrome - Wikipedia Fragile X syndrome is typically due to an expansion of the CGG triplet repeat within the Fragile X mental retardation 1 (FMR1) gene on the X chromosome. This results in not enough fragile X mental retardation protein (FMRP), which is required for normal development of the connection between neurons. Fragile X Syndrome: Causes, Symptoms, and Diagnosis Fragile X syndrome (FXS) is an inherited genetic disease passed down from parents to children that causes intellectual and developmental disabilities. Itâ€™s also known as Martin-Bell syndrome.

What is Fragile X Syndrome? â€” Fragile X Research - FRAXA ... Fragile X syndrome is the most common known cause of autism worldwide. Fragile X may cause intellectual disability, learning and behavioral challenges, and â€” sometimes â€” seizures. It tends to be more severe in boys than in girls. New situations may cause a child with Fragile X syndrome to become severely anxious or afraid. Fragile X Syndrome: MedlinePlus Fragile X syndrome is the most common form of inherited developmental disability. A problem with a specific gene causes the disease. Normally, the gene makes a protein you need for brain development. Fragile X Syndrome: Click for Facts, Symptoms, and Treatment Fragile X syndrome (also called Fragile X) is the most common inherited form of mental retardation.* It results from a change, or mutation, in a single gene, which can be passed from one generation to the next. Fragile X appears in families of every ethnic group and income level.

Fragile X Syndrome: Causes, Treatments, and More - WebMD Fragile X syndrome affects a child's learning, behavior, appearance, and health. Symptoms can be mild or more severe. Boys often have a more serious form of it than girls. Children who are born.
